

Vol. 18

RULES & LIFE ADVICE

Tell us if you have any allergies, it saves a lot of heartache.

Be nice to your parents, they have more dirt on you than you know.

We like our drinks boozy, designated drivers can be catered for in our Low & No section.

Remember the compliments you receive, ignore the haters.

No seat, no service. If your social circle should unexpectedly swell, please inform us and we will attempt to accommodate you. This is not a guarantee.

I may as well say it now, no we don't have any passion fruit, and we will not be getting any.

Ignition of absinthe or anything else will be treated with immediate and extreme prejudice.

Drink whiskey, it has more vitamins than vodka.

No shouting, clicking of fingers, flash photography, filming, drones, plant-based meat alternatives, lepers or time travelling laser monkeys.

Use more ice, trust us.

Any questions about our menu, the currency value of our bathroom floor, the state of our infinite universe, please ask us, don't google.

Agave spirits are amazing and will never cease to be an epicurial delight. Forget your youthful indiscretions and try a nice tequila tonight. Let it change your life.

I cannot, really and truly, I cannot stress this enough, for fuck sake - smile, it is going to happen.

INTRODUCTION

Welcome. Glad you could make it.

Sit, take a moment and be. The time for ordering will be in a moment.

Please ensure you remain well hydrated, it aids just about everything.

Spirits. This is a never-ending, never-complete, ever-changing asylum of international liquors that we love and adore. This shit changes almost daily so the idea of a list is almost redundant. That's why we have replaced it with an option of flights. This means you don't have to stay in one place, you can fly from one to another. These tastings are poured at 3 x 20ml serves and our mission here is to intrigue you, the guest, with a selection of fantastic spirits. Be it our favourites like pot still Irish whiskeys, agave spirits, poitin, rum, bourbon, rye, brandy, obscure liqueurs, gin or even, dare I say it, vodka, allow our extensive backbar to take you to places you've never seen in any of your wildest hallucinations. We don't do flights of absinthe, we gave it it's own whole section.

Now, absinthe. It's not illegal. We love it. Get involved.

Next the mixed beverage menu and it is quite robust, but not as long as the last few have been. Basically, it's 6 pages of mixed drinks. The first two pages are the style we enjoy making and drinking, liquor forward and robust, stirred brown and down or occasionally stirred & stemmed. Sazeracs, Martinis, Old Fashioneds, Manhattans et al.

The next pair of pages are our selection of beverages that involve citrus. This means they are built or shaken depending on the individual moment of creation. Each will carry a key adjective that will help you navigate their subtleties.

Finally in the mixed beverages section the pages of longer and more refreshing beverages. Taller by nature, usually served with ice, sometimes fizzy.

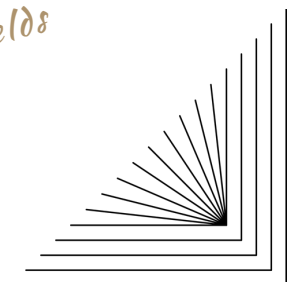

The next page is a moment of things perhaps a little easier going. Berries, Bubbles and Barley. This is a little selection of beers, ciders, red and white wines, champagne and the like for anyone looking for any or all of the above. Oh, and a few nibbles if you are peckish...

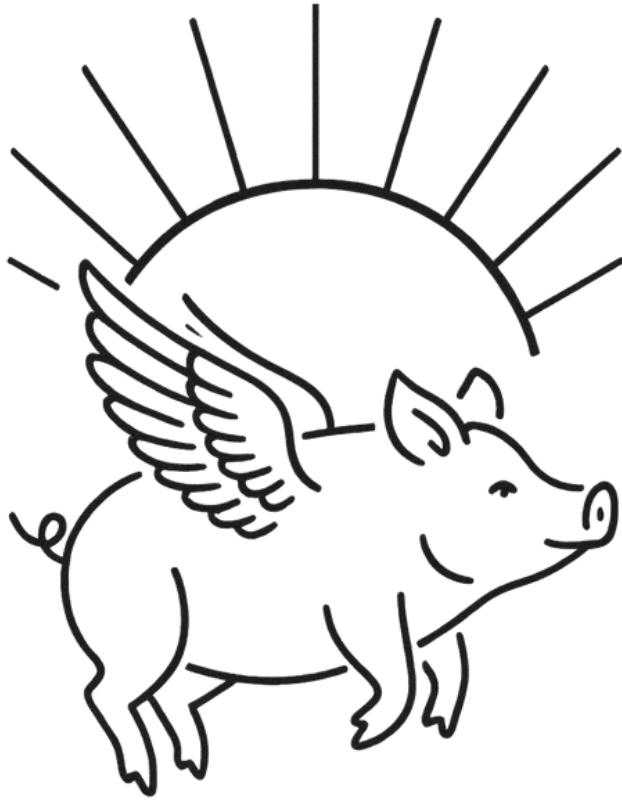

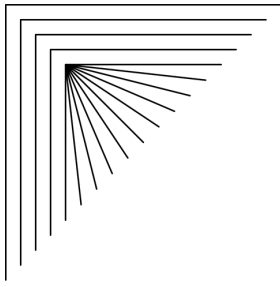

Well that's enough talk, now it's time for action, so let's crack on.

Speaking of another drink, the delightful little glass of punch [*Contains: Sulphites & Dairy*] you are sipping while waiting for your first drink was brought to you in association with Busker Irish Whiskey. Both the good people at Busker and us.

Hope you enjoy!!

*A man's got to believe in
something, I believe I'll have
another drink - Fields*

ABSINTHE

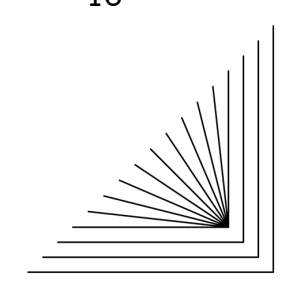

Celebrate the Green Fairy

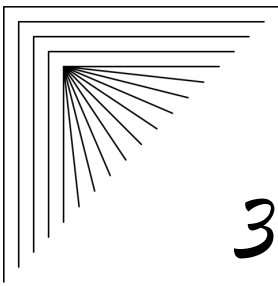

• ABSINTHE

Here at the Little Pig Speakeasy, we love our absinthe! There's nothing quite like it. Pungent, bold, strong, seductive, subtle and fascinating. We have curated various amounts of absinthe over time, and continue to add to them whenever possible, to bring diversity and gastronomy to a spirits category that many often associate with irresponsible late-teen quaffing. We have a selection of paraphernalia and fountains for the more elaborate enthusiast and a plain old glass of ice water for the more seasoned imbibers. As with anything enriched in history, there is a story behind absinthe. It is a story with heroes and villains, intrigue, international espionage, global restrictions and so much more. So sit back and relax as your absinthe journey is about to take another, or perhaps its first, step.
