Rules & Life Advice

Drink whiskey, it has more vitamins than vodka.

No shouting, clicking of fingers, flash photography,
filming, drones, plant-based meat alternatives,
lepers or time traveling laser monkeys.

Any questions about our music, menu, the monetary value of our
bathroom floor, the state of the universe etc. please ask us, don't google.

Agave spirits are an epicurial delight.
Forget your youthful indiscretions and
have a nice glass tequila tonight, allow it to change your life.

Absinthe

We Love Absinthe.

There's nothing quite like it. pungent. bold. strong. seductive. subtle & fascinating.

We have curated various bottles of absinthe and related liquors over time and continue to add to them whenever possible. bringing diversity and gastronomical delight to a category of booze most people associate with a terrible stag do in Prague. or conversely with a romantic bygone era of artists, muses, rogues and gangsters.

Light & Dark

Our menu of drinks is broken into 2 categories.

Light and Dark

This reflects the style of spirit in the beverage rather than a reference to sources of illumination or sense of humor.

Light steers you towards gin's, light rums, blanco tequilas and mezcals, poitin and vodka.
Dark moves into barrel aged territory featuring whiskies, brandies, aged rums, tequilas etc.

Drinks with '*' can be reimagined alcohol free.
